***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: The prior art teaches the use of a system which contains a single motor that can operate in a vibrate mode to cause a cellular phone to vibrate and a focusing mode to drive the lens of a camera in order to properly focus the camera. However, the prior art does not teach a system in which the motor disengages from the camera assembly in the vibrate mode in order to prevent the camera assembly from moving during the vibrate mode. Therefore, the claims are allowed over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
